

Conference	Award	Awardee	School	Presentation Title
37 Radar	1st Place Oral Presentation	Curtis Riganti	Univ. of Nebraska	Unmanned Aircraft System and Doppler Radar Observations of Rear-Flank Internal Surges in the 10 June, 2010 Last Chance, CO Supercell Observed During VORTEX2
37 Radar	2nd Place Oral Presentation	Joseph A. Finlon	Univ. of Illinois	A Comparison of X-band Polarization Parameters with In-Situ Microphysical Measurements in the Comma Head of Two Winter Cyclones
37 Radar	3rd Place Oral Presentation	Ya-Chien Feng	McGill Univ.	Better Use of Ground Targets for Radar Refractivity Retrievals
37 Radar	1st Place Poster Presentation	A. Addison Alford	Univ. Oklahoma	High Resolution Dual-Doppler Observations of Tropical Cyclone Vortex Rossby Waves
37 Radar	2nd Place Poster Presentation	Xingchao Chen	Nanjing Univ.	Assimilation of Radar and Surface Observations for the Analysis and Prediction of a Squall Line
37 Radar	3rd Place Poster Presentation	Ricardo Reinoso-Rondinel	Delft Univ. of Technology	High Resolution Estimation of Specific Differential Phase and Backscatter Differential Phase for Polarimetric X-band Weather Radars
37 Radar	Spiros G. Geotis Student Prize	Cameron Kleinkort	Colorado State Univ.	3D Shape Reconstruction of Snowflakes from Multiple Images, Meshing, Dielectric Constant Estimation, Scattering Analysis, and Validation by Radar Measurements
37 Radar	Program Chair Travel Award	Haonan Chen	Colorado State Univ.	
37 Radar	Program Chair Travel Award	Joshua Soderholm	Univ. of Queensland
