Evening Reception In Honor of Dr. Richard J. Doviak - \$10000 (Tuesday)

Support this special reception honoring Dr. Richard J. Doviak. Dr. Doviak was a leading atmospheric scientist/engineer at the NOAA/National Severe Storms laboratory. He was instrumental in developing the Doppler radar technology and transferring it to the NWS. He made other important contributions including studies of profiling radars, turbulence, solitary waves, dual polarization and phased array weather radars. He was an AMS fellow, certified meteorologists and a recipient of the David Atlas remote sensing medal. **Ask about co-sponsorship options!**

- Linked logo on AMS 40th Conference on Radar Meteorology webpage
- Recognition on signage at conference
