

# 50th Conference on Broadcast Meteorology

## Sponsorship Opportunities

The 50th Conference on Broadcast Meteorology, 21-23 June 2023 Phoenix, AZ will provide the opportunity for organizations to support, network, and be recognized at this important gathering to discuss issues facing broadcasters, media outlets, and the greater community that stands behind the information presented to the public at large. The weathercast industry is constantly evolving with advancements in technology and changes to how the public accesses this information. Be a part of the action! There are sponsorship opportunities for varying budget levels for organizations that seek to be recognized and support the conference.
